

Fancy Dress Ideas for Kids

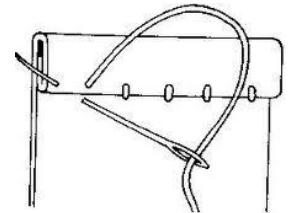

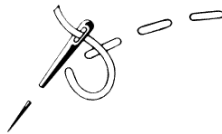

How to make a Drawstring Purse

You will need:-

brown material
dinner plate
slightly smaller dinner plate
brown/Black shoe lace
brown cotton

1. Place a plate on the brown material. Draw round the plate and cut out.
2. Hem around the edge of the circle, by folding over 1cm all the way round. Iron the edge as flat as you can and turn over a second time. Iron down again and then sew using either a hemming stitch or a running stitch.

3. Using a slightly smaller plate draw a second circle. Along the line of the second circle cut regularly spaced small holes. You can use a hole punch or a rivet machine if you like.

4. Thread the shoe lace through the holes ensuring that both ends finish on the outside.
5. Pull the shoe lace so it gathers the purse.
6. If you have any toggles or beads you can add these to the ends of the shoe laces for added decoration.
